Do you have a Conservation Plan on file with the Three Rivers Soil and Water Conservation District?

I certify that the property is farmed using a planned program of soil management and soil conservation practices which addresses issues such as the following:

- Reduce or prevent soil erosion by best management practices such as terracing, cover cropping, strip cropping, no till planting, sodding waterways, diversion, water impoundments and other such practices to prevent soil erosion and improve water quality.
- Maintain appropriate soil nutrient levels by application of organic and inorganic soil nutrients to produce average yields or crops, or as soil tests recommend, without being a hazard to water quality in local streams, rivers, ponds or other waterways.
- Control brush, woody growth, and noxious weeds on row crops, hay and pasture by use of herbicides, biological controls, cultivation, mowing or other normal cultural practices.
